

# SMARTCODE

MASTER COLLECTION

Oasis offers so much more than a selection of furniture. Indeed, the company aims to propose a complete and coordinated interior design, inspired by an idea: the beauty of the 1900s. Nevertheless Oasis also looks at the decades of great Italian design and architecture to capture the secret of blending different raw materials in a new, unique and universal design.

# Oasis, a story in time

**1908**

Floriano Quaia opens his first carpentry workshop: a small studio where furniture is made with the aim of lasting a lifetime.

**1945**

Bernardo Quaia, son of Floriano, sets down the foundations of a company where the first pieces of decorative furniture would later be developed.

**1972**

Francesco, Bernardo's son, builds a factory and creates - using his surname - an actual brand. Together with his brother Floriano, he sets up Arredamenti Quaia.

**1984**

During the flurry of the Eighties, Francesco Quaia establishes the Oasis brand, branching out into the production of bathroom furniture which thereafter becomes part of the company offer.

## The New Millennium

At the turn of the Millennium, an impetus of change, of fresh new ideas, sweeps through the company in the form of the next generation, Francesco's three children: Francesca, Federica and Lorenzo.

**2012**

The Home line is completely revised and relaunched with the aim of offering, under the Oasis label, a complete and coordinated luxury interiors package inspired by the language of cosmopolitan and contemporary style.

**2013**

The year sees monobrand flagship showrooms opening in both London and Hong Kong.

**2016**

Oasis selects the historically famous Libreria Bocca in Galleria Vittorio Emanuele II in Milan, as the exclusive location to display items from its collections, resulting in a coming together of two areas of Italian supremacy: culture and style. The principal aim of the company was to locate the best environment in which to showcase to the general public its perhaps less conventional furniture items.

**Nowadays**

The company is a century-old family business characterised by courage, tradition and a strong identity. It has market presence in more than 25 countries, the main ones being: Germany, France, Switzerland, Belgium, the United Kingdom, Emirates, Russia, Ukraine and the United States. The Oasis production portfolio includes a wide range of furniture collections for the Home, the Bathroom and the Contract industry for the construction of projects for both residential and professional purposes.

**2018**

During Salone del Mobile 2018, Oasis introduces the first issue of "Oasis World", a publication that explores the company's iconic look and philosophy in the world markets. At the same time, the Oasis brand is expanding its presence in the Chinese market with the opening of another luxurious showroom in the vibrant city of Shanghai.

## The future of italian know-how.

There is only one area of Italy where the air can blow in from foreign lands, that place is Friuli. And along with that wind comes history, style and certain ways of thinking. It is here that the story of Oasis began, the result of a refined and eclectic merging of different cultures, civilisations, languages and cuisines often referred to around the world as "Italian style".

### Francesca Quaia

The eldest, Francesca, is the first to work alongside her father in the business. By assuming responsibility in 2001 for the commercial direction of the company, is pivotal in steering it along the road to internationalisation.

### Federica Quaia

Second daughter Federica, having specialised in the worldwide branding of luxury goods, takes over all aspects of image and communication within the company in 2006, thus assuming marketing and artistic control.

### Lorenzo Quaia

Third-born Lorenzo completes the transition to the fourth generation in 2008. Specialising in project research and development as well as highly technical products, he becomes head of the technical production division.

# SMARTCODE

## PLAYING WITH COLOUR TO CREATE A CAPTIVATING DESIGN

Clean in form and original in detail, Smartcode stands out for its ample personalisation opportunities both in terms of finish and configuration.

The collection offers wide modularity thereby making it suitable for all types of contemporary bathrooms, from functional spaces to more ambitious “salle de bain” settings.

Clients can opt for units with open style storage as well as drawers in contrasting finishes, where desired, thanks to a choice of 33 matt lacquers and four wood types.

The Smartcode structure is characterised by 45° angles which highlight its linear design, one which is carefully crafted and highly modern.

Also available to complete the overall look is an array of complementary items such as mirrors, baths, taps and small bathroom accessories.

# SM 01

**SM01 Composition:**
